Business Terms

ALL ORDERS ARE ACCEPTED SUBJECT TO previous sale and the following terms and conditions:

PRICES in this catalogue cancel all previous lists and quotations and are subject to change without notice. Cost of packing will be extra. Prices include local route delivery, but a special charge covering cost is made on distant or special deliveries.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalogue list price.

RATES.—Lots of 5 and 25 of a variety will be furnished at the 10 and 100 rates respectively.

TERMS, CASH WITH ORDER, unless by special arrangement when the account is **due in 30 days from date of invoice**.

INSPECTION.—Our stock is regularly inspected and certificate will be sent with each shipment.

WE DO NOT GUARANTEE our stock to live and no allowance will be made for plants that fail to grow.

CLAIMS of shortage or error must be made direct to our office within five days after receipt of goods. Stock delivered as per order and in good condition is not returnable.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

CLAIMS FOR DAMAGE WHILE IN TRANSIT MUST BE MADE AGAINST THE DELIVERY COMPANY. Have delivery agent note the damaged condition on the freight bill, and promptly present your claim to the transportation company.

Landscape Suggestions

While we cannot undertake to do any planting or landscape designing directly with our staff, we are always in close touch with competent landscape men and will gladly co-operate with you in arranging appointments.

Deciduous Trees, Shrubs and Vines

NOTE—The figures in italics, following each variety, indicate in feet the approximate height of that plant when mature. It must be understood, however, that many varieties in their native habitat greatly exceed this height, but soil and climatic conditions modify their growth and character to a variable extent, and allowance for this has been made in the heights given here.

We recommend that all varieties marked with an asterisk be lifted with ball of earth secured in burlap. Experience has shown that the loss in these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve an extra charge per plant, as follows:

2' to 4'—25c 4' to 6'—40c 6' to 8'—60c 8' to 10'—75c

Larger sizes in proportion. In all instances where the varieties are marked B. & B., these charges are included in the printed list.
